

PES COUNCIL “SAVING EUROPE”

1-3 December, Prague

As European Parliament Rapporteur for the European Pillar of Social Rights, I was very pleased to moderate the Panel on Social Europe of the Council of the Party of European Socialists (PES).

There is a clear message of the European Socialist Family in dedicating such a panel on Social Europe: there is no future for the European Union without a strong Social Pillar, which is essential for citizens to get control of their lives !
